

CLANED

Inspiring learners

Claned is a cloud-based intelligence learning platform.

Claned is the easiest way to build learner-centric and cost-effective online courses that users love.

The Claned Edge

If your goal is to create engaging courses and increase learning results, Claned is the most suitable platform for you.

This is what you get:

- Tools to increase learner engagement and achievement
- Less effort in course and learner management tasks
- User interface that is modern and intuitive
- Claned analytics focused to improve ROI
- Top-notch pedagogical support to make sure your courses succeed

"The most important result we had while using Claned internally, and with clients, was greater engagement and more social interactions among learners."

Uwe Niehaus,

Founder and Managing Director, BPI

"I have never seen this level of social engagement and active participation from students in an online platform."

Mikko Hakala,

Director of Young Business Generations,
Economic Information Office
